Student satisfaction survey

The student satisfaction survey is conducted through a Google Form to assess the student's satisfaction on the following parameters:

- Academics
- Placement
- Course curriculum
- Available resources
- Co-curricular and Extra-curricular activities

The questions are indicative of the respective performance and the requisite analysis obtained is self-explanatory.

Objective of Student Satisfaction Survey

- To assess the program's strengths and weaknesses
- To identify any issues with a particular learning environment,
- To investigate the participation of the students in extracurricular activities.
- To understand the placement of the students
- To analyze the student's involvement in the competitive examination.
